

Logistics Operations & Compliance Framework

1. Carrier Scorecard Template

This scorecard establishes uniform baseline criteria to objectively weigh individual freight forwarder proposals against exact Service Level Agreements (SLAs).

Performance Category	SLA Metric Target	Weight	Bidder Score (1-5)	Weighted Score
On-Time Delivery (OTD)	≥ 98% on-time arrival to dock	30%		
Transit Time Compliance	Adherence to quoted lane hours	20%		
Cargo Care & Safety	≤ 0.5% damage/shortage rate	20%		
Data & Tracking Visibility	Real-time EDI/API updates every 2 hrs	15%		
Billing Accuracy	≥ 99% invoice accuracy vs. quote	15%		
TOTALS	Minimum Acceptable Score: 85%	100%		

2. Warehouse Safety Training Outline

A comprehensive operational roadmap structured to fulfill standard regulatory training requirements and reduce facility incident rates.

Module 1: General Facility Safety & Hazard Identification (Duration: 2 Hours)

- **Slip, Trip, and Fall Prevention:** Proper housekeeping practices, immediate spill cleanup protocols, and designated walking path compliance.
- **Hazard Communication (HazCom):** Deciphering Safety Data Sheets (SDS), recognizing GHS chemical labels, and safe handling of hazardous materials.

- **Personal Protective Equipment (PPE):** Mandatory use rules for steel-toe boots, high-visibility vests, safety glasses, and hand protection.

Module 2: Material Handling & Ergonomics (Duration: 1.5 Hours)

- **Safe Lifting Techniques:** Keeping loads close to the core, lifting with legs, avoiding trunk twisting, and utilizing team lifts for oversized cargo.
- **Ergonomic Workstations:** Adjusting pack tables and sorting lines to prevent repetitive strain injuries (RSIs).
- **Manual Equipment Operation:** Safe maneuvering of manual pallet jacks, hand trucks, and heavy-duty storage bins.

Module 3: Powered Industrial Trucks - PIT / Forklift Safety (Duration: 3 Hours)

- **Pre-Operational Inspection:** Daily checklists covering fluid levels, tire integrity, brake functionality, and mast hydraulic lines.
- **Safe Driving Principles:** Enforcing speed limits, maintaining floor horn alerts at blind intersections, and proper load tilting rules.
- **Pedestrian Traffic Segregation:** Strict adherence to painted walking paths, safety mirrors, and right-of-way protocols.

Module 4: Emergency Response & Fire Prevention (Duration: 1.5 Hours)

- **Evacuation Routes:** Keeping emergency exits entirely clear, locating assembly points, and understanding floor warden assignments.
- **Fire Suppression Tools:** Practical training on the P.A.S.S. method (Pull, Aim, Squeeze, Sweep) for portable fire extinguishers.
- **Incident Reporting:** Step-by-step reporting instructions for near-misses, minor injuries, and severe equipment damage.
